E-Portfolio

SharePoint E-Portfolio

for Microsoft SharePoint Server

FEATURES

SharePoint® E-Portfolio is a student-centered platform which can be augmented by a total integration to a full-blown LMS. Students can create and customize portfolios for academic, career or personal use; maintain their plan of study and share their work, goals and achievements with advisors, career counsellors and employers. Faculty, departments and institutions can create portfolio comments.

- “Who am I” - is grouped by categories shown in a menu:
“My Abilities”, “My Plans”, “My Events”, “My Pages”
- “Assets” - A repository for all your electronic artefacts
- Invite users
- Invite people to view your E-Portfolio with a simple email link whether they are registered on your portal or not
- Teacher and student feedback and comments files
- My Grades from SharePointLMS courses
- My Certificates from SharePointLMS course grade books
- Blogging Area
- Calendar
- Discussion Forum
- Messages from Teachers and fellow students
- Teachers Space

LMS INTEGRATION

SharePoint® E-Portfolio can be integrated with SharePointLMS allowing for Single Sign-On. In addition students within SharePoint® E-Portfolio are able to select previously uploaded files and grades in the SharePointLMS system to be included in their E-Portfolio.

SHAREPOINT® E-PORTFOLIO HIGHLIGHTS

- User - Centered: Students control what goes into their SharePoint® E-Portfolio and who sees it
- Customizable: Students can create multiple views and choose different themes for their E-Portfolio
- Flexible: Allows students to create portfolios to showcase their skills and achievements
- Reflective: E-Portfolio encourage reflective thinking
- Easy to Use: No need for HTML or programming skills. Basic Browser skills to fill out web forms and upload files is all that is required.
- Goal Oriented: Users can set, review, and revise goals related to their education, course, career, work, service, and volunteer activities
- Career Centered: E-Portfolio contains extensive ways for users to archive information about educational, volunteer, service, work etc.
- Faculty Portfolios: Faculty can create their own E-Portfolios to use for professional development, to highlight their achievements, or to archive material for promotion and tenure
- Import / Export using IMS standard
- Export to zip-file and use it later on another platform

WHO CAN USE SHAREPOINT® E-PORTFOLIO?

- Students and graduates who will have their portfolio online to be visible to the teachers, parents and peers
- Graduate Students who are looking for potential employers
- Faculty who want to share and promote their research
- Staff who want to share their responsibilities and/or personal profile with the students and faculty

SECURITY

SharePoint® E-Portfolio is a password-protected application. All sensitive data is taken from the Microsoft® Active Directory. No portfolio or user information is accessible for internal or external search engines.

WHAT IS INCLUDED?

Using SharePoint® E-Portfolio students, employees and others can have their portfolio (blog, calendar, personal info, documents and etc.) online. Advanced access control will let the user decide who will be able to read and comment at the portfolio.

A lot of configuration features like the ability to upload files to portfolio, calendar and events by users and many others!
